

Coursework 2			
Task	Content	Criteria	Marks
Task 1	Generator Design	Correct implementation showing clear understanding	5
		Partial implementation with minor issues	3
		No valid implementation	0
	Discriminator Design	Correct implementation showing clear understanding	5
		Partial implementation with minor issues	3
		No valid implementation	0
Task 2	Vanilla GAN	Correct implementation showing clear understanding	5
		Partial implementation with minor issues	3
		No valid implementation	0
	LSGAN	Clear training/validation curves with meaningful analysis	7
		Curves provided with limited analysis	4
		No meaningful analysis	0
	WGAN	Clear reconstructed and generated samples	8
		Basic results with limited insight	4
		No valid results	0
Task 3	Training Curves	Clear loss curves for G and D with meaningful convergence analysis	10
		Curves provided with limited analysis	6
		Incomplete or weak reporting	3
		No valid curves	0
	Sample Evolution	Clear early/mid/final checkpoint comparison	10
		Partial comparison	6
		Minimal evidence	3
		No valid comparison	0
	Final Comparison Figure	Clear side-by-side comparison across objectives	5
		Basic comparison	3
		No valid comparison	0
Task 4	FID Protocol	Clear and consistent FID setup	4
		Incomplete protocol description	2
		No valid protocol	0
	FID Results Table	Correct FID computation and structured reporting	8
		Partial implementation or reporting issues	5
		Incorrect or missing FID results	3
		No results	0
	FID Analysis	Insightful discussion linking FID to qualitative results	8
		Basic discussion	5
		Limited discussion	3
		No meaningful analysis	0
	Interpolation Implementation	Correct interpolation with at least 8 intermediate samples	5
		Partial implementation	3

Task 5	Interpolation Analysis	No valid interpolation	0
		Clear comparison of smoothness and semantic transitions	5
		Limited analysis	3
		No meaningful comparison	0
Task 6	Objective Trade-off	Clear reasoning on stability vs quality vs diversity	5
		Basic reasoning	3
		No meaningful discussion	0
	Failure Case Analysis	Clear failure example with correct diagnosis	5
		Example provided but weak explanation	3
		No meaningful analysis	0
	Improvement Proposal	Technically sound proposal with justification	5
		Basic proposal with limited reasoning	3
		No meaningful proposal	0
